Talk Time with Editor Francis Farias Exclusive Interview with **Dr. Gaddam Vivek Venkataswamy** Hon'ble Minister For Labour Government of Telangana

....A Journey of Service : From Medicine and Business to Public life....

Sir, how're you feeling in the hotseat as the cabinet minister for the government of Telangana, holding several departments under you? Were you asked to take up this ministry or you opted for it?

I never opt for anything. I just see that whatever responsibilities I've been given are carried out with excellence and to the best of my ability.

I never opt for anything. I just see that whatever responsibilities I've been given are carried out with excellence and to the best of my ability. When I take up a responsibility, I'll try to bring about a positive change in that. For example, I'm in the Labour Ministry, I made sure that children's labour act comes into play as well as the announcement for minimum wages will be made shortly. My main responsibility is to see that the labour are protected from violations and exploitation. When I was made the minister, I ensured that the due collections for the government is achieved. I've seen in the sand market the revenue from tax collection have gone up from 700crs to 1000crs. My aim this year is

1200crs. So I'm trying to close in the loopholes to see that the government revenue increases which will boost the government schemes for the betterment of the people in turn. That is the main intention of our chief minister and we were working

towards ensuring that transparency is there in whatever operations we do and I've been quite vocal about it and have been ensuring that all the departments fall in line with this.

Was this your childhood dream to get into politics? Since you hail from a powerful political family? Your father Venkat Swamy was a central cabinet minister.

I was very comfortable doing my business. Although I passed in medicine and got into business which initially started from an investment of 5 Lakhs that hit the 2000cr turnover. I was basically a successful businessman and

I was extremely satisfied with it. I also made sure for the past 35 years my business should run on credibility and top quality. I've always been a die-hard business mindset person. But I wanted the legacy of my father to continue, as he did so much for the poor people, the country. So many people had instilled in me the desire to help others as well, to serve my country and community so that's how I got into politics.

What factors have influenced you to choose medical education and become a doctor? What was the aim and ambition in life, was it to become a doctor, businessman or a politician?

I took medicine because I thought it was another form of extending service to the community. That was my intention initially. When I finished my medicine, I was asked by my father to take up and start this business and seeing my father go through a lot of troubles in regards to licensing, being a labour leader, and other management issues so we took up a challenge as to establish an industry and I've been able to sincerely transform myself through this opportunity.

After taking up as the cabinet Minister Employment and mining? What were your top priorities in order of your preferences that needs to be focused?

my main job after taking up on the labour minister position was to get the worker acts in place as that was instructed by Sir Rahul Gandhi ji that the deep workers need to be

looked after, safeguarded and taken measures for their legitimate cause. The second responsibly for me is to see that the minimum wages act is implemented. Last 10 years, the Governemnt has not acted on this issue, how were we will shortly implant the minimum wage policy. I have a role in ensuring that the atmosphere of the industry is positive and I'm working towards it.

You must be having a huge responsibility on your shoulders? Please could you throw some light for better understanding?

when I was elected as a member of legislative assembly, there were no development works at all. There was mostly pomp and show, so I had dug issues in depth and did the needful. I'm ensuring that each house is adequately equipped and maintained. For example, side drains, drinking water connection and supply and so on. So these are the steps I take that fall directly into my responsibility.

It is learnt that you are very tough as a minister. Your staff is scared of you, is that true?

Staff is not scared of me, they love to work under me as they know I'm straightforward and that I do not like corruption and nobody can afford to promote corruption and thirdly, I take decisions which are in the benefit of other people. I also work towards ensuring that I'm on the right side and don't cross my limitations. So, definitely people who want to work

Staff is not scared of me, they love to work under me as they know I'm straightforward and that I do not like corruption and nobody can afford to promote corruption and thirdly, I take decisions which are in the benefit of other people.

with me have to be under those parameters and once they understand this, they love to work with me. I'm a tough task master but I also like to look after my people.

Before and after getting into military you must have a dream to achieve certain things. Has your dream/desire been fulfilled, please share with us.

That particular dream will be fulfilled in a few years. As I've recently joined the ministry, it'll take some more time for the dream to be realized so that people see the benefits of the changes that I'm trying to bring and I'm hopeful that I'll be able to bring about these changes, and we will discuss this the upcoming years.

After joining politics you must have had good days and bad days. Please share your experiences with us. Any regrets?

When you have a positive mind, good days are always there across all competent professional fields. But some of the frustrations are, like in the private sector where your decision gets implemented very fast. It doesn't happen in the government, we have to learn how it works and adjust our timings with their pacing. That could be a little frustrating at times but that is how the

When you have a positive mind, good days are always there across all competent professional fields.

Government and bureaucracy works through deliberation of processing. We can however, try to speeden things up which is exactly what I'm doing.

Which is the most memorable moment of your childhood days? Which is the most unforgettable moment which has become a dear memory to you?

my schooling has become a very memorable period. I'm the product of the Public School. I learnt a lot of diverse qualities such as leadership. They also taught me discipline, interpersonal skills, empathy, sympathy and social development. I'm lucky I have lovely friends since childhood throughout my journey. So I can never forget these memories. These are the good memories I have from childhood.

What are your Strengths & Weaknesses? Any Achievement so far in your career so long?

My strength is as you've seen, when I was in charge of Jubilee Hills any Election, we were in a negative, my team was brought to a winning position through me. I encourage my team and give them support and I can work very well under pressure and difficult circumstances. My weakness is when things are not going perfectly well. I get irritated when the task lacks perfection.

How do you look at life? Is it challenging?

life is always a challenge. It has challenges and hurdles and you need to be prepared to deal with these challenges. I love challenges and doing difficult tasks so I'm very comfortable with it.

Where is your favorite Holiday destination in India? ABROAD?

In India, it is Kashmir for its breathtaking view and environment which gives a sense of calmness. I love Kashmir. And in abroad, US because most of my friends are settled there otherwise it is UK, Singapore which is known for work ethics and discipline.

When you have humility, patience, passion and gratitude, they help you in the long term journey.

What are your Hobbies? Any favorites as such?

I was a table tennis champion in school. I love to play golf now. I've also been a cricket player in childhood days and I enjoy my sports. I love spending evenings with my grandchildren and family. Reading is also one beneficial hobby I enjoy.

What's your main AIM & GOAL in LIFE? Have you Achieved it or YET to ACHIEVE it?

I think my journey being a doctor to a businessman who did well and stepping into politics has always been surrounded with the positive intention to be of good service. It was to serve the people and lend a helping hand to the needy and my path has been filled with stepping stones that lead to this destination.

What's your Main MOTTO in LIFE?

As I told you, you need to earn the goodwill of people.

What is your sincere advice to the younger generation who would like to get into Politics or any other services or any career?

Youngsters have a big role to play in the nation building. They're a generational change. They need to learn to be patient and understand their roots which can bring stability in life and make them feel grounded. They need to be grateful for what they get in life which is very important. When you have humility, patience, passion and gratitude, they help you in the long term journey. They often seek quick results but they need to ponder and plan with sustainable efforts which I think will make them more happy, peaceful and successful.

Jyoti Kunkolikar

Artist, Script Writer, Director and Producer Also
A SOCIAL ACTIVIST

Multi-faceted Versatile Personality

Jyoti Kunkolienker ji, you have become a successful Producer, Director, and Script Writer, Artist now Also A SOCIAL ACTIVIST? ? You are a multi faceted personality? How do you feel?

As a child I was always found of good things in life. Whenever I used to go to a fair, all the toys used to fascinate me. As soon as I got one toy, a different toy used to catch my attention. Similarly I got attracted towards all creative things like television, writing, films etc. When people like you call me multi faceted personality it feels nice. I enjoy all the roles I play.

We hear that you are also an Advisory Member in the Censor Board? Were you Invited by the CENSOR BOARD to become a member or you opted for It? How is the feeling?

Yes I'm a member of censor Board for this year. No I didn't opt for it. Every state government recommends advisory members for censor Board as there are numerous films in different languages from all over India. It feels great to be part of this board as the discussions widens my knowledge about entire process. I am learning.

It is learnt that you have spent more than 2 decades in the Film Industry? How was your Journey ? Can you share some of the moments with us?

In 1993 Doordarshan started in goa and I got attracted towards it. I started with comparing, announcement and in the process I learned about technical part. Then I was of documentary team. After some time Doordarshan produced a telefilm Mukta, based on my story. I also wrote screenplay, dialogues and acted in the film. I got lot of experience. Then I produced my first individual film Daulat.

After that I produced many films and documentaries. But one documentary is very special. It was produced by Doordarshan and concept, comparing and interview was taken by me. It was

*Yes I'm a member
of censor Board for
this year.*

on Jannat Bi, a lady who worked in Hindu crematorium. It was challenging to shoot for this documentary as there was no retakes. The situation was such we cdnt demand a particular shot the way we wanted to shoot. We combined 3 dead bodies last rites for this documentary. The atmosphere was sad and tensed. Though Jannat Bi was not a feminist she gave some amazing answers. When I asked her are you not afraid of ghosts to which she replied - there no ghosts in real life. They are to be seen only in movies. In Hindu religion women are not allowed to enter crematorium but I went there for 3 continues days and spent a lot of time there. When this documentary won the National award I felt the reason was her logical answers and a extraordinary work by a ordinary women.

Second documentary that touched my life as a woman was documentary I made on Baina, a red light area then in goa in year 2000. Though Baina is no more a red light area. Interviewing those 300 ladies was a different experience. It pained me to see how circumstances forced these women to take up this job. This two documentaries gave a lot of emotional pain.

Was it a long cherished dream or it was by accident, that you got into Film world? who was your Inspiration or was this your Childhood dream?

Entering film world was a step by step process. Started as a child artist, then drama, then I started participating in state level competition. Then TV. Then slowly moved towards

documentary and films. As a writer I felt when you write about women's problems it is limited to only readers. It widens a bit more when it comes to drama but film reaches to a much larger audience.

I take inspiration from many people for different things. It's difficult to name one person.

We hear that you have produced films & serials in most of the regional Languages, apart from Hindi. Is it your belief of national National Integration that you put into practice? Your comments ?

I produce films in my mother tongue and our state's official language konkani. For the growth and prosperity of language it is important that many dramas and films are produced regularly. I feel it need of our language.

It is learnt that You had a Govt job in Agriculture department you worked for almost 14 years is this TRUE? Your fate and destiny brought you into the Filmi Duniya do you agree? Any regrets,

More than destiny or fate it's your hard work that counts. I was always found of film world. I resigned from my job to concentrate full time on my Art. I don't have any regrets.

You are a successful Director , Producer, Script Writer.? Before joining the film world, you must have set a goal ? Have you been able to accomplish or still working towards

reaching your goal?

I had no particular goal as such. Whenever I come across a nice script I start working on it. I was incharge of one of the Bal Bhavan kendra I came across a script written by prominent writer Mr. Pundalik Naik, which I thought had a great message. I instantly directed this children's film with my Bal Bhavan students. This film won National Award in children's category. Similarly Mareparyant phasi was a telefilm initially but people loved my story and I produced a feature film based on the same story. I have no specific goals. I just go forward with whatever I like.

Can you share some of your contributions and experiences in the field of women empowerment also?

Interviewd more than 200 women from different fields on newspaper, akashwani, Doordarshan and private channels. Organised 80 empowerment programmes in collaboration with women and child development department at state level. Also organised 'Mahamelava' a huge empowerment programme and 32,000 women participated in it.

Informatory documentary on 'ordinary women but extraordinary work 'on 10 selected women.

I organise ' Sahityotsav ' a literary event every year.

' Sakhi Sanvad ' a programme for private channel

It is learnt that you have been making several programs for Doordarshan? Also you are on an Interview Show? conducting Interviews with different personality's? Share your experience

I started to take interview from Doordarshan. Till date I have interviewed around 500 personalities from different fields. Offcourse majority of women. But I'm very thrilled to take live interviews. I have taken around 100 live interviews. It is very challenging to take live interviews. You have to be very sharp when you interview dignitaries like CM or big industrialist. I have got a lot of viewers and credit goes to goa Doordarshan.

What are the Awards and Rewards you have received so far for your contributions to the FILM Industry and also as a Social Activist? Please throw some light?

Yashodamini state award 2006

Best supporting actress goa state film festival 1995 and 1997

Best story for film Mareparyant phasi goa state film festival 2015

Orchid award for Rural Empowerment 2014

National award (prasar Bharati) for film Gauri children category 2008

National award for Sambar takke budhwantrai all India Radio playwright award 1995-96

Can you share your most memorable moments from your Childhood days? Also after joining the Filmi World? It is said that you are very hard TASK MASTER? People are very much scared of you ? Is this TRUE?

I had a very nice childhood. I had a upbringing and opportunities every child deserves. My parents were broad minded, liberal and had liking for art. My father always appreciated me. I had a strong base. My childhood days were most memorable days.

Can you please tell us some of your hit films and serials, as a producer, Director, Script Writer which brought you in limelight? please throw some light up on your contributions to the Film Industry? also as a Social Activists?

My film Daulat was very much appreciated. It was against superstition. Second my film Mareparyant phasi was also favourites among many people.

My recent series of live programme Gaat Bhet was very popular. Series I did on history of goa Goyacho Itihas was very popular too.

A 50 part series on women achievers Women in Goa was also a hit programme.

What is your motto in life?

My motto in life is to accept whatever life gives you and give it best shape possible.

What are your hobbies? How do you spend your free time?

My hobby is to learn and take best things from life. Reading good books, gardening is my favourite hobby. I spend most of my free time in my garden. I like meeting new people, making friends. I like to keep pace with the world.

What has been the most satisfying moment in your career?

Most satisfying moment is when my film Mareparyant phasi was screened at International Film Festival India 2009. And feedback I got for the film.

There are lot of youngsters who are looking to make it into the Filmdom or any career? What is your sincere advise to them ?

Before entering film world one should be aware of what you should be doing and what you shouldn't be doing. Film glamour is only for few days and you should always remember this. But it's a good career choice. Women should never compromise no matter which career they want to take up. Be positive always. Do smart work rather than hard work.

Now that you are so popular that you have become a public figure in GOA ? Do you have any plans to get into politics?

Yes. If I get opportunity I will join politics. If we get reservation I think many women would like to join politics. When someone like me who likes to do social work gets in power it will help to do things faster and easier.

If any political party approaches you to join their party &

ask you to contest elections will you accept the Invitation ?

yes

**OR give you Nominated MP or MLC ? or any political post ?
Will you join politics? Please be very
frank and Please tell us ?**

Not MP. I want to work for my state. If the
political post allows me to do good work
for people of Goa I will except.

*Yes. If I get opportunity
I will join politics.*

**In your Career Span of more that 2 decades? You must have
come across so many MEDIA PERSONS? Both Electronic &
Print ? how do you Feel about the role of MEDIA
PERSONS? whats your comment? How did you find Francis
Farias As A MEDIA MAN ?**

Media people play a strong role in creating awareness. Both

Tamil series "Uravugal" got us 3 awards, "best Producer", "Best Director" and "Best Actress".

You are a successful Director, Producer, etc. Before joining the entertainment film world, you must have set a goal? Have you been able to accomplish or still working towards reaching your goal?

My Goal is to start a Channel, which is historical and Mythological genres. I have acquired content for it and in the process of producing more of this kind to achieve my goal.

Minister, Late Smt. Indira Gandhi. Could you please elaborate on that experience? What was your reaction?

After having 3 nominations for the movie "Kulanthayum Deivamum" in tamil, telegu and kannada, were have performed dual role. I went to Delhi and was denied award for tamil. I had the presence of mind and guts to pull the saree of the PM and tell her that if your dad was here, he would have given the award to a kid. Then she watched my movie that day itself and I was given the award the following day with a kiss from her. The kiss was more precious than the award and it was that incident that made me realise that a woman has to fight for her rights.

Was it a long cherished dream or it was by accident that you got into Film world? Who was your Inspiration or was this a Childhood dream?

I was cradled by the then super star Gemini Ganesan and my mom and grandmom being actresses, I was born as an actress to add to reality I started my film career when I was 3 months old. My inspiration is always actress Savithri.

We hear that you have produced films & serials in most of the regional Languages, apart from Hindi. Is it your belief of National Integration that you put into practice? Also you produce International TV Serials. Your comments?

Most of my serials have portrayed women as a strong character. I myself is a fighter to thrive in this World of Male dominance and come thus far both in personal and professional life. I have fought for child abuse, I do counselling in Chennai prison and continuing with such deeds till date.

Can you share some of your contributions and experiences in the field of women empowerment also?

Most of my serials have portrayed women as a strong character. I myself is a fighter to thrive in this World of Male dominance and come thus far both in personal and professional life. I have fought for child abuse, I do counselling in Chennai prison and continuing with such deeds till date.

Can you share your most memorable moments from your Childhood days?

Also after joining the Filmi World? It is said that you are very Hard TASK MASTER? People are very much scared of you? Is this TRUE?

I had the privilege of working with 5 chief ministers of South, NT Ramarao, Dr MGR, Dr Jayalalitha, Kalaingar Karunanithi and Annadurai. I also had the privilege of working with the then president V VGiri. The most memorable of all these experiences was with Kalaingar Karunanithi in Ramanujar (600 episodes) for his Channel, though he being an atheist. I wouldn't call it as Hard Task Master but as a multitasker with humanity as the multi roles in my life as a wife, mother, producer and much more molded me well. Thus, my professional team is an extended family for me and more than task it is the affection that binds us together. People are not scared but some consider me as a threat. If it was fear then once there was a strike in the film industry and it was only my production that went nonstop. This is a clear evidence of the love and respect that the industry has on me.

How do you look at LIFE from the broader Angle PERSPECTIVE? Is it CHALLENGING?

Am a very balanced person, who can't be swayed to any extremes of happiness or sadness.

What is your motto in life?

To build a home for the under privileged of the film Industry.

What are your hobbies? How do you spend your free time?

I do meditation, read books, listen to motivational speeches, I spend my time at the cancer institute too. Thus, have no spare time. Above all I know the value of time and once lost can't get it back.

Which is your favorite holiday destination? In India and abroad?

Switzerland

Can you please tell us some of your hit films and serials, as a producer, Director, which brought you in limelight? Please throw some light up on your contributions to the Film Industry?

Sangarsh gave me a massive boost and support with a TRP rating of 68% in the year 1991. Even after so many years people still ask me when is the sequel of Sangarsh, that is the impact of the series. Not just that I got a mail from the then finance ministry stating that 8% of smuggling has come down as an impact of the series, which I cherish as the best award. 'Manthiravasal' in SUN Network is another huge breakthrough. Above all 'Krishnadasi' is a project that is close to my heart till date, which was based on dasies, who are not prostitutes but are equivalent to the legally wedded wife, which was a huge hit in tamil, telugu&hindi. Another prestigious project would be "Romapuripandian" which I worked with Dr KalaighnarKarunanithi, where I had the privilege to work with him as he is the dialogue writer. 'Ramanujar' is another milestone in my career. I did my first web series with Ekta Kapoor, which I cherish till date and become a huge admirer of her skills of getting into details.

What are your Strengths & Weaknesses? Any Achievement so far in your career?

Am very strong and can't be bullied is my strength, am an emotional person, may be that is my weakness. My achievement is being a woman producer I have produced close to 32,000 hrs of programming and this is only up to 2009 and after which I haven't calculated.

I did my first web series with Ekta Kapoor, which I cherish till date and become a huge admirer of her skills of getting into details.

What has been the most satisfying moment in your career?

The love and affection that I get from my daughters satisfies me as a mother. Then number of people who meet me wherever I go and thank

me for some help that I had done. Such thoughts satisfy me that I have been of some help to others.

Who is your favorite actor/actress? With which artists have you enjoyed working the most?

"KUZHANTHAIYUM DEIVAMUM". In 2019 - Kalaimamani Award - Received from Honourable chief minister of Tamil Nadu k. Edappadi Palanisamy. In 2017 - Lifetime Achievement Award by the Tamil Nadu State Government, awarded to her by the current Tamil Nadu Chief Minister. ; Received awards from the Mylapore Academy for Best actress award and also in Recognition for outstanding services for Tamil Stage and TV Serial; In 1971 - RECIPIENT OF AWARDS FROM -

Ekta Kapoor who is a phoenix of the industry turned me into her admirer.

My favorite actor is Surya and all time favorite actress is Savithri. My most favorite artist that I have worked with is Kamal Hasan.

In your Career Span of nearly around more than 2 decades now holding various positions, you must have come across so many MEDIA PERSONS in Both Electronic & Print Medias. How do you feel about the role of MEDIA PERSONS? What's your comment?

The most admirable personalities in the industry are Kalanithi Maran whose impeccable growth made me feel awe always and being a billionaire getting to the roots of the work is a quality that can't go unadmirable, Sameer Nair who was the person behind the success of Star plus, Tarun Katial, who's a go getter and has the Midas touch, Ekta Kapoor who is a phoenix of the industry turned me into her admirer.

What are the Awards and Rewards you have received so far for your contributions to the FILM Industry? Please throw some light?

I won many awards. Some of the important awards to mention a few are In 1968 - Received the Best Child Artiste Award from the beloved mother Smt. Indira Gandhiji - National Award for the film titled

Former Singapore Prime Minister Mr Lee Kuan Yew for 'Best Performer'; In 2013 - felicitated for 50 years contribution in South Indian Film Industry by South Indian Chambers of Commerce;

There are a lot of youngsters who are looking to make it into the Filmdom or any career? What is your sincere advice to them?

Youngsters these days lack patience, they are looking at only the low hanging fruits rather than to toil to get to the top. Especially women in the industry these days have more opportunities than in those days where we were not considered an equal gender. So hard word and perseverance are the qualities needed for them to achieve greater heights and this would be my sincere advice to them.

ANURADHA BHOSLE

Founder of Avani

...states the mission and objective of the NGO.....

What is the VISION, MISSION & Main OBJECTIVES of AVANI which is an NGO (Non Government Organization)? Is this confined only to KOLHAPUR District of Maharashtra or All India ? Please explain in detail for a better understanding?

In everything we do, we believe in informing and sensitizing the government about the implementation of existing laws meant to protect women and children.

The way we affect change is by educating woman and children on their constitutional rights, helping them to become self reliant, and providing protective services to those in need.

We work for the protection, welfare and upliftment of women and children from deprived communities. Our specific focus is the prevention and rescuing young girls from child labor practices, child marriages, and trafficking while providing them with opportunities for education with the active support of the local government.

Our work is based in 10 districts in the state in

Maharashtra. Kolhapur, Sangli, Satara, Latur, Usmanabad, Ahmednagar, Beed, Nashik, Parbhani, Aurangabad.

It is learnt that the AVANI Organization is an NGO which works towards the prevention of child labor, child trafficking and female infanticide etc?

Please could you throw some LIGHT on this for a better understanding?

It is our purpose to work alongside children from the homeless, migrant and nomadic communities.

We do this by conducting surveys to identify children at risk, rescue those children in need and provide them with food, clothes, shelter, healthcare, rehabilitation, and an education up to standard 10 and beyond.

In everything we do, we believe in informing and sensitizing the government about the implementation of existing laws meant to protect women and children.

We run our own Community Awareness Campaigns and Gender Equality classes to promote awareness for protection against female infanticide, address the issues involving the malnutrition of girls, address why girls are not encouraged to attend school by family members, preventing child and forced marriage, and offer free community health education camps.

Since you are the founder Chairman of this AVANI ORGANIZATION? What had inspired you to start this ORGANIZATION for the Children? Please elaborate?

Since I was raised in such extreme poverty and worked as a child laborer at the age of 6, I know what hardship is, how child laborers suffer, but, most importantly, I know the value of and opportunities that come from

THE BEST OF INDIA

completing my education.

My message will always be rooted in the belief that long-term change and growth can only be accomplished by encouraging people to educate and do for themselves.

It is learnt the AVANI NGO is doing a gr8 job? In the protection of the poor children from getting into the wrong hands? Is this TRUE? How do you manage the GOONDAS? Do you have police support?

Yes, every day we go to work to protect children at risk. We do surveys, conduct rescue operations and rehabilitate children.

The Goondas always threaten us. However, we try to counsel them and make them understand the importance of protecting the childhood of these children. Some of them change their attitude and they become positive to help us. Some play against us. However, I am not scared with any of their threats.

Many times police are supportive. However, most of the time, the police do not help us. Child protection is not seen as a priority.

It is learnt that AVANI your NGO is a 2 decade old organization & there are about 70,000 children's ? How do you manage this organization do you get regular funding from organizations?

We do not have any government funding. We are able to continue our work primarily with local support in cash and in kind along with some international help.

Your AVANI NGO also imparts life skill education to your deprived children's? Is this TRUE? What does this mean? Please Explain?

Avani works at the grassroots level and at the community level and with the schools. We work with adolescent girls and boys between the ages of 12-17 on gender equity. We help them understand their roles and responsibilities as a

student to complete their education. We also help adolescent boys realize the importance of respecting women, their mothers and sisters.

You always wanted to start this organization for the under-privileged children or it was just by accidental you had started this NGO? Comments?

I was born in Shirampur, India. My family was very poor and we were in desperate need of money, so I became a child laborer at the age of six. For the next three years, I worked as a domestic servant earning enough money to pay my own way through school. This early experience impressed upon me the value and importance of an education as one of the only means to better oneself.

After graduating with a Masters of Social Work degree from Nirmala Niktan College in Mumbai, I was

exposed to the needs of migrant children who crushed rocks used in paving roads. I introduced these families to the principles of micro-finance and assisted in setting up self-help groups for women.

Whats your Aim & Ambition in LIFE? You have achieved or YET to achieve for your AVANI NGO?

My ambition is to provide a safe and secure childhood to the children of India.

No, I have not yet achieved this ambition.

Your AVANI NGO especially you being, daring n dashing front line warrior you must be getting LIFE Threats from Big Underworld Dons? Aren't you scared? How do you tackle them & retaliate?

The Goondas always threaten us. However, we try to counsel them and make them understand the importance of protecting the childhood of these children. Some of them change their attitude and they become positive to help us. Some play against us. However, I am not scared with any of their threats.

The Goondas always threaten us. However, we try to counsel them and make them understand the importance of protecting the childhood of these children.

What are the different activities being imparted by your AVANI NGO to make the Children self sufficient? Please Explain?

After successfully completing their standard 10 examinations, we offer hands on experience about the importance of giving back to their community. Avani seeks to INSTRUCT, INFORM, and INSPIRE showing how one person can make a difference and affect positive, long-lasting change.

We help students over the age of 18 either continue their college education, vocational training or finding a job. We have an Earn & Learn program that provides financial assistance for college education.

How come your AVANI NGO is Confined limited to only Kolhapur Children's? Why not All India? Any specific reason for not spreading tentacles all India?

Actually, we are not just working in the Kolhapur district alone. We have been able to gradually expand our efforts and are currently working in nine additional districts in the state of Maharashtra.

As with most grassroots NGO's, it comes down to financial support. Avani operates without any government funding and could not exist without local community participation and much needed donations. Our entire operation is run on donations in cash and in kind from a network of local supporters and a limited number of grants from national and international organizations.

How does your AVANI NGO Operate? Do you have Social Workers or Informers? Who inform you about the Children's?

Since the year 2000, we have run a special Child Labor Rescue Project team of professional social workers, counselors and experienced field workers. 5 times a month, we conduct our own independent surveys to identify child laborers.

Our staff coordinate the rescue efforts of children from shops, hotels, and worksites. Before the rescue

operation takes place, paperwork must be filed with the proper government agencies and police departments, and coordination of the involved departments must be approved.

Understandably, this is quite a dramatic experience for the child we are rescuing. We counsel the children and explain to them what is going on. We have food for them as this whole process takes many hours. Next, we take the children for a health checkup. Lastly, we take the children to the Child Welfare Committee (CWC) for their further decision, rehabilitation and the safe future housing of them.

Reports and court hearings must be accurately documented and distributed to responsible government departments following a rescue operation.

The majority of our information on child laborers comes from conducting our own surveys. However, we also receive information from concerned local people.

Could you share your most memorable moment of your childhood days?

I have lot of good memories. My father was very spiritual person and every night before we ate dinner, we came together and my father used to conduct prayers. As a child I never liked to pray. So, as soon as I used to see some preparation for prayer was going on, I would hide under a blanket and pretend I was sleeping. Then, after

they finished the prayers, my mother used to distribute the food. I would get up just for eating the food. However, my mother was smarter. She knew I was pretending. So she never gave me food when I skipped the family prayers. Many times, I went to bed without eating any food.

What are your Strengths & Weaknesses on & off the field? Please list a few of your achievements so far your organisation has achieved?

I am very strong person ,good and effective leader. Also very committed and hard working and focused in work.

Weakness- I trust anyone easily can't say No to people easily. I am workaholic

I have been invited speaking tours to talk about Avani's work in the USA, UK and Canada

Since 1995, Avani has been recognized with 54 awards including 3 national and 2 international awards.

International Awards

2020 Global Fund for Children International Courage Award from the United States of American and the United Kingdom recognizing only 2 organizations worldwide that contributed to innovative grassroots organizations around the world that are positively impacting children in especially challenging circumstances.

Women Have Wings Award from the United States of America for special achievement in the fight for women's rights and economic upliftment.

National and State Awards

Kaun Banega Crorepati invited by Amitabh Bachchan to compete on the KBC program. All the winnings went to support Avani's work.

King Shau Award for outstanding educational work with children

Uncha Maza Zoka Award from Zee Marathi State Television Network for significant commitment to social work in India.

What are your sincere thoughts in respect of LIFE? Is it CHALLENGING?

We need to enjoy and make every moment the best in life. Life is beautiful and it is short. We need to make

The media has played a very important role in Avani's work. They have always highlighted our work. Without the active participation of the media, our work and reputation for protecting children would not be known to as many people.

best use of it.

What is the secret of successfully running an NGO with 70,000 children with the aim of for protecting them?

I knew that my goal to protect so many children could not be achieved in a day. This type of work can only be achieved relentlessly day by day. It is a continuous effort and cannot be sustainably achieved quickly.

This work requires the highest level commitment to the work, to the staff and those in need that we serve. It requires the ability to form and maintain effective teams. It requires cooperation and understanding. One must also understand the importance of counseling, truly listening and caring about what those at risk are going through.

What are your Hobbies? Any Favorites as such? Do you get leisure time?

Reading. I read a lot to stay informed with current events. I love listening to old Hindi songs. Working in our gardens is the best relaxation for me.

As an Founder Chairman of AVANI NGO you must have come across so many MEDIA

PERSONS? Both Electronic & Print Medias? How do you feel about the role of MEDIA PERSONS? What's your comment?

The media has played a very important role in Avani's work. They have always highlighted our work. Without the active participation of the media, our work and reputation for protecting children would not be known to as many people.

So many of the children we work with have been able to have a voice, raise their voice and have voices heard only because of the active participation of the print and electronic media.

What is your sincere advice to the younger generation who would like to start an NGO or any other services or any career?

To start an NGO, one must have a commitment and vision to see what others may not see as a need.

Starting NGO is easy. But finding the resources, financial support and reaching out to the community is very hard work

TALK TIME with FRANCIS FARIAS

EXCLUSIVE INTERVIEW.....

with **Soumya Guguloth..**

International Football Star

...From the Football Field to Life:

Drive to Push Beyond Limits

What factors have influenced you to choose the game of Football being a woman?

When I was in my schooling I played a urban school games in that I participated in 200 mtrs, 400 mtrs and 800 mtrs in that I secured second place , My school PET sir saw me and he impressed by my performance and asked me for join in football Academy (CARE FOOTBALL ACADEMY), he is my first Coach and also for Academy (G.NAGARAJU).

How are you feeling after playing the international match? Are you comfortable and satisfied? Was this very challenging?

Playing an international match was a dream come true. I felt extremely proud representing my country. It was challenging - the pace, the pressure, and the expectations - but it also pushed me to grow stronger mentally and physically. I'm satisfied, but I always aim to improve.

Playing an International match was a dream come true.I felt extreamely proud representing my country .It was challenging-the pace the pressure and the expectations

Why did you choose Football over other popular sports like Cricket or Hockey?

I did enjoy watching cricket and other games, but football had my heart. The speed, team coordination, energy – everything about the game fascinated me. Once I started playing, I just knew this was my calling.

At what age did you take up football? When did you start representing at state and international levels?

I started playing football when I was 12. By 14, I was selected for the state-level team. My international debut came at the age of 14, year of 2015 and it was a milestone I'll never forget.

Who was your inspiration to take up this sport?

My biggest inspiration was my Coach (G.Nagaraju). He believed in my talent even when others doubted me. Among athletes, I admire Cristiano Ronaldo from Portugal – his journey and consistency truly motivate me.

How did you feel during your first international match for India?

I had goosebumps when I wore the national jersey for the first time. Standing for the national anthem brought tears to my eyes. It was a mix of pride, nervousness, and pure joy.

What awards and rewards have you won in your career so far?

I have been awarded the Best Player award in several national-level tournaments and recently a recognition from the All India Football Federation for (PLAYER OF THE YEAR) Award in 2025, my international contributions and also I received (WOMEN OF THE YEAR) from my Current Club East bengal fc.

Can you share the most memorable moment from your childhood?

I had goosebumps when I wore the National Jersey for the first time, Standing for the National Anthem brought tears to my eyes..

One unforgettable moment was when I was the only girl selected for the Nation. I scored First Goal for my Country (India vs Bhutan) That match changed how others saw me — not as a girl, but as a player.

What are your strengths and weaknesses? Any notable achievements?

My biggest strength is my speed and strategic thinking on the field. As for weaknesses, I used to get emotionally affected by criticism, but I'm working on it. A highlight of my career was scoring a decisive goal in an inter-national SAFF TOURNAMENT against pakistan, it's my first International Goal in Senior Women's Team.

I started playing football when I was 12, By 14,I was selected for state level team. My international debut came at the age of 14

What do you like to do in your free time? Any favorite hobby?

I love reading autobiographies of sports personalities and listening to music. Off the field, I also enjoy dancing – it relaxes me.

What is your favorite holiday destination – in India or abroad?

In India, I love visiting Kedarnath (Uttarpradesh) for its peace and Coolness. Internationally, I'd love to visit Maldives someday.

***How do you look at life from a broader perspective?
Is it challenging?***

Life is indeed challenging, especially as a woman in sports. But every challenge is a stepping stone. I believe that with the right mindset, any obstacle can be turned into an opportunity.

What is your motto in life?

“Push beyond limits. Play with heart.” That’s what keeps me going, both in life and on the field.

Who is your favorite sportsperson?

Cristiano Ronaldo. His discipline, work ethic, and never-give-up attitude inspire me every day.

What is your advice to the younger generation who want to enter Football or any sport/career?

Believe in your passion, no matter what others say. Stay consistent, train hard, and don’t fear failure. Always respect your coaches and teammates, and never stop learning.

Climbing the highest mountain sport is totally adventure venture very risky? Then how come you have selected mountaineering venture? Any specific reason you had? Who was your inspiration?

Risks may have every where , i can say it's purely adventure it will adventurous all the time, i love to do adventure so I keep going, no one inspired me in mountaineering it's my self intrest and goal , but i always inspire by seeing some old age people climbing Mt Everest and other deadliest mountains

Mountaineering sport is organized by the Government of India or its on your own? If on your own is this your hobby? Please explain?

Mountaineering has no special funds from govt , it should be by our own or private sponsors , it's not like hobby , it's like a goal to me to inspire others atleast 1

Up to what height you have climbed so far? Have you reached to the Mountain top n planted the

Indian National Flag?

I reach 8849mts it was the heighest point from the sea level and it is Mt Everest and there is no possibility to anyone to plant flag just we can hold our national flag with hands and it's our most happiest moment standing at the top of the world with our national flag (try colour)

“When I was 9 years old ,i always love to climb near by hills in Visakhapatnam to enjoy the top view of our city and finding caves sleeping there enjoying the time”

From where have you taken the formal mountain climbing training? Who was your Inspiration? Please explain ?

I did my basic mountaineering course from HMI (HIMALAYAN MOUNTAINEERING INSTITUTE) DARZLING, I Can say my gurus are my all time inspiration

How did you feel for the 1st time climbing the huge mountains aren't you scared? Then again reaching the TOP n planning the Indian National Flag How did you feel? Please share your experiences for a better understanding?

I feel like I was the most happiest person in the world

Climbing the huge peaks you do it SOLO Or you

have a well trained team?

Especially Some mountains will go solo , especially mountains like Mt Everest will go with the guide and with team as well

Climbing the huge peaks is done during the day time or also carried out during the night?

Depends on mountains if it's huge mountain obviously will start 12 in the morning some times we should walk day night , some times only day time

So far how many mountains you have climbed so far in the world n which was the highest peak you climbed so far? Would you like to share with us your experiences?

I climbed all the heighest mountains in each continent, heighest mountain i climbed is Mt Everest, i learnt alot from my Mt Everest expedition also learnt from small moutains as well , in big moutains we should be more confident, with small moutains we should be confident enough

What are your achievements so far in mount aineering you got? Any Awards n Rewards you got?

I climbed Mt Everest two times in the same season , i finished seven summits challenge , i skied to the south pole 90°, not yet recieved any awards or rewards

Could you share your most memorable moment of your childhood days? Which is the most unforgettable moment which has become a precious memory to you?

When I was kid i always climb this mountains the only reasons to find treasures I saw some movies and i thought may be i can find gold bags daimond bags in any cave or forest this curiosity made me an adventurer, never found any treasure by i found my self as a good climber

What are your Strengths & Weaknesses? Please list few of your Achievements so far in your career so long?

My strength is my self belief, never found my weakness, i was also an world martial arts champion in 2018 held at Athens Greece

What are you sincere thoughts and honest outlook of LIFE? Is it CHALLENGING?

I always feel happy to take challanges so no worry

What are your Hobbies? Any Favorites as such?

I love travelling to new places usually travelling is my hobby, my favourite is my home city Visakhapatnam

Which is your Favorite Holidays destination in India/Abroad?

Meghalaya, India

You must have come across so many MEDIA PERSONS? Both Electronic & Print Medias? How do you feel about the role of MEDIA PERSONS? What's your comment?

The power media is they can show are exhibit good And bad news ,the thing is people will belive in both, but still beacuse of some genuine media ,people like me where coming out as news

What is your sincere advice to the younger generation who would like to get into Adventure Sport like Mountaineering or any Sport or any career?

Should believe in your self and self sufficient for everything

I climbed all the heighest mountains in each continent, heighest mountain i climbed is Mt Everest, i learnt alot from my Mt Everest expedition

Rajendra Talak,
Film Director and Producer
...Throws light on his movie time and says
that being a self-critic brought him wonders...

To become a Film Director & Film Maker was this your
Childhood dream come true? If so please throw some
LIGHT?

I was into sports since my childhood and was a TT player. I never thought of becoming a film director. In 1976, I shifted to theatre and pursued it very seriously in all the departments such as lighting, set design, costumes, music and directing. It was during the stage show of Marathi play 'Shituu' written by well-known writer 'Shri. G. N. Dandekar' where I was doing music, that I realized the potential of this play to convert it to a film and that is how my film journey started and I made the first feature film Shituu in 1996.

You are making Small Budget films how do you feel? Is
it satisfying? Is this True?

Whenever I do a film budget is my last priority, it is always the subject and content where I focus the most. If you consider the budget of all my regional films, it is not small. I have always believed in making a quality film and never compromised on that.

I loved watching cinema. I was watching cinema regularly in my college days either in theatre or at film festivals and was also hosting film screening as a member of film society in Margao.

Who was your real Inspiration on who inspired you to get into
Films Direction & Film Making ?

Shyam Benegal, Gulzar and Raj Kapoor are my inspiration.

What are the Films you have made & Directed so far are
they satisfying to your expectations? Please Explain?

Till now I have made films namely, Shituu (1996), Aleesha (Konkani film 2004), Bilingual film Savalee in Marathi and Antarnad in Konkani (2006), Bilingual film Saavariyaa.com in Konkani and Marathi (2008), O Maria in Konkani (2010), A Rainy Day in Marathi (2013), Miranda House in Konkani and Marathi (2018). I am myself a biggest film critic of all my films and I always see that I do not repeat the mistakes I have done in my previous films, which leads to satisfaction when I make a new film.

Please name a few films which you have Directed & Made
Which has become a household name?

My Konkani films 'Aleesha' (2004) and 'O Maria' (2010) which were based on issues related to Goan soil were an instant hit and liked by people of Goa and at all the film festivals wherever these films travelled. Aleesha won the National award in 2005 and O Maria celebrated silver Jubilee in Goan theatres. It was the first film to celebrate silver jubilee in Goa.

It's almost more than a decade now since you are in the Film
Industry ? How come you have limited yourself only to
Konkani Films? Any specific reason you have?

I have not restricted myself to Konkani films neither I want to restrict in future. It is the subject and content based on

I have always believed in making a
quality film and never compromised on that.

which I decide the language of the film. I have done bilingual films like Savaleein Marathi and Antarnad in Konkani (2006), Saavariyaa.com in Konkani and Marathi (2008), Miranda House in Konkani and Marathi (2018).

Who is your favourite Hero Heroine whom you admire the most? And Why?

Sanjeev Kumar and Rakhee are my favourite actors. They touch your heart the most in whatever character they play. Sanjeev Kumar in Andhi, Mausam, Sholay, Angur, Kanoon to name a few. Rakhee in Tapasya, 27 down, dusra admi, trishul to name a few

Could you share your most memorable moment of your childhood days? Which is the most unforgettable moment ? which has become a memory to you?

Being brought up in a joint family, my mother taught me the most important thing in life that is to never complain, always try to find solutions and be happy with what you have.

If you are totally satisfied with what you do, people will always like it.

What are your Strengths & Weaknesses ? Any Achievement so far in your Acting career so long ? Are you happy?

My strength is my confidence and my weakness is to be a perfectionist. I tried acting in a play but I was never comfortable. Maybe the director in me always tried to interfere in my performance which made me uncomfortable hence I never tried in that area though some people offered me a role as an actor.

What's your Favorite holiday destination in India? Abroad?

Any peaceful area which relaxes my body and mind and gives me energy for the new thoughts is my favorite destination. So far it is Kumarakam Lake Resort in Kerala and abroad it is Portugal.

What are your Hobbies? Any Favorite?

Listening to music and keep creating new things.

How do you look at LIFE from broader PERSPECTIVE point of VIEW ? Is it CHALLENGING?

Life comes with lot of challenges which you cannot avoid. Working for others happiness without any expectations always overcomes all the challenges and keeps you happy.

What is your sincere advice to the younger generation who would like to get into Films Direction or Film making or any other services or any career?

Always be focused on the things which your heart tells to your mind. Do it with passion, dedication and determination and be your best critic of whatever you do. If you are totally satisfied with what you do, people will always like it.

Dr. Murali Mohan
Sr Environment Scientist (Retd)
...has reviewed on the Musi River pollution...

Musi River is one of the major tributaries of Krishna River in south India which passes through Hyderabad, the capital city of **Telangana State**. **River Musi** is a tributary of Krishna River and originates at Anathagiri hills near Vikarabad, 60 Km upstream of Hyderabad city which ultimately joins the Krishna River at Wadapally. The total length of Musi River is 240km. The Musi River basin is situated in the Deccan Plateau between Latitude:17° 21' 59" N and Longitude: 78°21'59" E.

River Musi flows into Hyderabad city as a clean resource, however from Bapughat to Pratapsingarm locations, the river receives sewage and other solid waste dumping. The inorganic pollutants (heavy metals) are the greatest concern due to their presence in the sewage and other solid waste. The municipal solid waste dumps along the riverbanks are washed into river Musi with runoff water during monsoon. The average rain fall of Hyderabad city is 70cm. It may be noted that the city witnessed heavy rainfall

recorded between 28-32cm during 13-17 October 2020. This caused flash floods in many parts of the city and all the municipal garbage and other solid waste washed into the river and there was an impact of heavy metals in the sediments of river Musi.

Hyderabad city has a population of 9.7 million in the metropolitan region (as per 2011 census) and consumes over 500MGD of water per day. The present sewage generation is 1450 MLD whereas the existing capacity of Sewage Treatment Plants (STP) is only 725.8 MLD. There is a gap of about 750 MLD and high percentage of untreated sewage is discharged into river Musi.

Rivers receive sediments from various sources and are deposited in the bottom and acts as carriers of and source of metal accumulation in food chain due to bio-magnification. Heavy metals are non-biodegradable and thermostable and thus readily accumulate to toxic levels. Thus, there is effect on human health due to consumption of fish and water. The geochemical process responsible for the exchange of metals in the water-sediment interface are adsorption and precipitation. Over the past 3-4 decades, studies on aquatic sediments have increasingly been carried out for assessing the geo-chemical transport of elements especially heavy metals from the terrestrial environment to river bodies.

Heavy metals are widespread pollutant of great environmental concern as they are non-degradable, toxic, and persistent with serious ecological ramification on aquatic ecology. Heavy metals discharged into a river system by natural or anthropogenic sources during their transport are distributed between the aqueous phase and sediments. Heavy metals are of high ecological significance since they are not removed from water as a result of self-purification but accumulate in water systems and enter the food chain.

The recent study of heavy metals indicated that there is an increase in the concentrations of Chromium, Nickel and lead. The reason for the increase of metal concentrations may be due to the runoff water with municipal garbage and other solid waste washed in to the river during the flash floods occurred in the month of October 2020.

The study of sediments for heavy metal concentrations is essential and provides to identify, to gain precise understanding of the potential and actual impacts of elevated concentrations, procedures of downstream transport deposition and subsequent release under changing environmental conditions. Trace metals like As, Cr, Ni, Cd, Ba, Pb and Co in the sewage / effluents / municipal solid waste migrate and contaminate the sediments.

The sources of contaminants are:

1. Discharges of treated / untreated sewage and effluents.
2. Dumping of municipal solid waste along the inlets of Musi River.
3. Runoff water joining the river during the rainy season which carries all the garbage, municipal and other solid waste from the roads and open areas.
4. Emissions from industries.

The degradation of water quality of Musi River is due to the discharge of untreated / treated sewage of Hyderabad city and colonies located along the river. Dumping of municipal solid waste and other waste along the banks of river is also another concern for pollution. Municipal solid waste causes adverse impacts to the environment. Waste sources such as used electronic goods, electroplating waste, used batteries when dumped along with municipal solid waste increase the heavy metals levels in the dumps. Slow leaching of these heavy metals under acidic environment during the degradation process leads to leachates with high metal concentrations. Since the leachates are one of the potential sources of pollution, monitoring of heavy metals will provide their concentrations and facilitates to recommend suitable remedial measures.

The treated effluents from Common Effluent Treatment Plants of PETL (Patancheru Effluent Treatment Plant Ltd), JETL (Jeedimetla Treatment Plant Ltd) and IDPL (Indian Drugs and Pharmaceuticals Ltd) in addition to untreated

effluents from small scale industries / units located in Balanagar, Jeedimetla, Kukatpally and Uppal areas are also contributing pollution load and affecting the water quality of Musi River thereby causing deposition of heavy metals in the sediments.

Ministry of Jal shakti has identified that sources of metal pollution are mining, milling, plating apart from domestic sewage, treated / untreated discharges of industries and dumping of domestic and industrial sludge. Storm water runoff from urbanized areas is a significant sources of metal pollution in the receiving water streams. The riverbed sediments are usually regarded as the final sink for heavy metals discharged into the environment.

Public concern has been voiced on many occasions about the pollution of rivers in Telangana State and of Musi River in particular. Honourable NGT (National Green Tribunal) in its order dated 20.09.2018 in OA No 673 of 2018 has issued directions to the Govt of Telangana for preparation of 'Action Plans' for restoration of polluted water bodies / polluted stretches which includes active restoration steps and good environmental practices.

Musi river (from Bapughat to Wadapally stretch of 120km) has been identified as priority I stretch for restoration of river quality as the BOD (Biological Oxygen Demand) is in the range of 4-60 mg/l. Nakkavagu (Bachugudem to Nakkavagu) & river Manjira (Gowdicherla to Nakkavagu) were placed under priority II stretch as BOD on the range of 5-26 mg/l.

Maneru stretch of 120km (Karimnagar to Somanpally) and Karakavagu at Palvanha were categorised under priority III as the BOD in the range of 6-20mg/l.

Kinnerasani and Godavari rivers are also placed under priority IV as the BOD is in between 4-10 mg/l.

Krishna river falls under priority V because of BOD in the range of 5-6 mg/l.

Works of 31 STPs (1259.5MLD) constructions in HAM model for priority I & II stretches are commenced. For other stretches 17 STPs are under different stages of construction. 40 KLD FSTP (fecal sludge treatment plant) was commenced at Nallcheruvu under Musi catchment. 17 FSTPs were established under priority III to V stretches.

Indicative Guidelines for restoration of Water bodies published by Central Pollution Control Board (CPCB) in June 2019 in compliance with NGT order (10.5.2010) in MA No.26/2019 has prescribed procedures for the management of sewage, industrial and other wastes for control of pollution.

- **Recognition Phase:** Identification & recognition of problem, collection and maintenance of critical information / data, catchment details, digital mapping.
- **Restoration Phase:** Declaration of designated best use, assessment of water quality, identification of sources of pollution, quantification, gap analysis including sewage, industrial effluents, waste management.
- **Protection Phase:** Preparation of action plans for sewage, industrial effluents and other wastes. De-siltation, de-weeding, prohibition of discharges/disposal of wastes and action against violators, protection of drainage channels. removal of encroachments/blockages.
- **Improvement Phase:** Needs of present & future generations, chemical treatment approaches, In-situ techniques (flocculation, biological treatment), biodiversity environment.
- **Sustenance Phase:** Good governance based on fairness, transparency and empowerment of all stake holders to sustain the restoration efforts, awareness, training, dissemination of information, promotion of public participation with schools, colleges and NGOs.

Govt. of Telangana State has submitted 'Action Plans' for restoration of polluted river stretches which were approved by CPCB. As per the timelines given by Hon'ble NGT, the action plans are to be implemented by 2023. With a total estimation of Rupees 6623.72 cr, the action plans for restoration & rejuvenation of polluted stretches are under implementation.

The following departments are involved for implementation of 'action plan' for restoration of water quality of the rivers.

Irrigation & CAD dept	Revenue dept
Agriculture dept	Ground water dept
Rural Develop dept	I & PR
Forest dept	TS Pollution Control Board
Fisheries dept	R&B
HMWS&SB	Municipal Admn & Urban development
HMDA	Bio-diversity Board
Industries dept	Panchayath raj dept
Finance dept	

Inter departmental coordination is very important for successful implementation of action plan and further maintenance. A periodical review by concerned heads of the departments involved in the programme with top priority may lead to protect our valuable resources for future generations.

Frequently asked question (FAQs) regarding special intensive revision (SIR)

What are the procedures adopted for distribution of Enumeration Form?

(a) The Booth level Officers (BLOs) will visit each house hold and distribute the pre-printed Enumeration forms in duplicate to the existing electors and guide them in filling up the form.

❖ The electors will have to file the relevant details in the Enumeration forms and the filled in Enumeration form will be collected by the Booth Level Officers during the subsequent visit.

❖ The Booth level officer will collect the forms and keep one copy of the Enumeration form with him/her and give an acknowledgement of receipt of form on the other copy of Enumeration Form, which is to be retained by the elector.

[b] The Elector can also fill the Enumeration Form online and submit for which provision is provided in the ECI website <https://voters.eci.gov.in>. An online search facility is available to enable electors to search their details in SIR 2002. Further information on this facility is provided under FAQ No. 7.

c) Booth Level Officers will also provide Form-6 along with declaration form for enrolment of new electors, if required.

d) The Booth Level Officer will make at least 3 visits to the house of each elector.

What should I do if I did not receive my Enumeration Form (EF)?

The Enumeration Form will be made available either through Booth Level Officer or it can be accessed from the official website.

<https://voters.eci.gov.in> In case of your absence, the form will be handed over to any adult member of your family. An elector can also contact the Booth Level Officer either over phone using the contact number of Booth Level Officer available in <https://ceotelangana.nic.in> in case he/she has not received the Enumeration Form or through the Book a Call with BLO option which is available in the website <https://voters.ect.gov.in/> ECINET App.

What should I do if I am unable to fill the Enumeration form?

During the distribution of Enumeration Form, the Booth Level Officer will guide the elector to fill in the form. In case, if the electors are unable to fill the Enumeration Form even after that, the BLO will assist the electors in filling the form while making subsequent visits to the elector's house.

What is Special Intensive Revision?

The Election Commission of India, as per the law is empowered for preparation and revision of Electoral Rolls. To maintain the integrity of the electoral roll, the Commission orders revision of electoral roll before every election or as per requirement. Now, since many changes have occurred in the existing electoral roll due to frequent migration which has resulted in electors getting registered in more than one place, non-removal of dead voters, the Election Commission announced the Special Intensive Revision with the objective that no eligible citizen is left out and no ineligible person is included.

What is the duration of SIR process?

The SIR activity starts from 25/06/2026 and will end-up with publication of Final electoral roll on 01/10/2026.

What are the phases of SIR?

Sl.No	Activity	Period
01	House to House Enumeration	25/06/2026 To 24/07/2026
02	Publication of draft electoral roll	31/07/2026
03	Period of filing claims & objections	31/07/2026 To 30/08/2026
04	Notice Phase (Issuance, hearing & verification) decision on Enumeration Forms and disposal of claims and objections to be done concurrently by the EROS	31/07/2026 To 28/09/2026
05	Final Publication of Electoral Roll	01/10/2026

How do I check whether my name already exists in the Electoral Roll of SIR, 2002?

The details can be retrieved by the voters from the official website of the Chief Electoral Officer, Telangana at crotriangma.nic.in / <https://voters.ecti.govi.in> by using the "search by Electors details" option available in the search facility of the portal. Partwise electoral roll data in PDF is also hosted in the site and electors knowing their polling station can search their names in the PDF also. The printed hard copy of Electoral Roll of SIR, 2002 is available with the Booth Level Officer and they will assist to find out your name.

What should be done if name of an Elector is not found in the Electoral Roll of SIR 2002, even though he voted in 2024 parliament elections?

If the name of an Elector is not found in the Electoral Roll of SIR 2002, it means that he may have not enrolled during that time, in that case he can try to retrieve the elector details of his/her parents/grand parents and their details shall be filled in the Enumeration Form in the respective column. The elector can take the help of Booth Level Officer and they will assist in identifying the appropriate details.

How do I update my address if I have moved to a new location?

Address changes can be done after the publication of draft electoral roll on 31/07/2026. The elector can apply in Form 8 to the Electoral Registration Officer for updating the address. These forms will be processed during the Claims and Objections period, from 31/07/2026 to 30/08/2026. These changes will be reflected in the final roll.

If an elector is not available in his house, during the visit of the BLO, how can he submit the Enumeration Form?

If an elector is not available in person to fill the details in the Enumeration Form, on behalf of the elector any adult member of the family can fill up and sign the Enumeration Form and can submit it.

Can I make corrections in the Enumeration Form or do I need to get a fresh Enumeration Form from the Booth Level Officer?

There is provision fresh for corrections if any shall be made in the Enumeration Form the corrected information is written clearly and accurately the form to the Booth Level Officer.

Is it mandatory to provide Aadhaar number for submission of Enumeration Form?

No providing Aadhaar number in the Enumeration Form

is optional and only if elector desires to provide it, they can fill the Aadhaar number in the Form

What should I do if the photograph printed in my Enumeration Form is incorrect or outdated?

A copy of the recent photograph shall be affixed in the Enumeration Form in the space provided for it

How long does it take for Booth Level Officers to collect the filled forms after distribution?

The Booth Level Officers will make at least 3 visits and will collect the filled in forms before 24/07/2026.

Can a new elector who had completed 18 years, apply for inclusion of his/her name in the electoral roll now?

The new elector who has completed 18 years shall fill up the Form 6 given by the Booth Level Officer along with declaration form for enrolment. The blank forms will be supplied by the BLO. These Forms will be processed by the Electoral Registration Officer of the concerned Assembly Constituency during the claims and objections period starting.
